

Hat Exercise (5 minutes)

Please use this sheet of paper to jot down criteria wearing “different hats” or taking the perspective of people who will be affected by the list of vaccines required by childcare center and/or school entry. This could include the perspectives of parents, providers, the state immunization program, school staff, the people of our state and others. Please use only a few words to describe each criterion. After you have finished with this exercise, you will have a chance to share your list with others in small groups.
